

Advantages of Gifting Through The Calgary Foundation

Serving the Donor

The Calgary Foundation offers a broad scope of services that help donors make effective charitable investments. Working with donors and their professional advisor, TCF guides strategic charitable investments based on long, deep ties to the local community.

Simplicity & Service

We work with the donor and their advisor to design giving plans suited to desired charitable and financial goals. Once a plan is in place, we can take care of the paperwork, financial reporting, asset management and grantmaking.

Sophisticated Gift Advice

We accept sophisticated and complex gifts, and will work with the donor and their advisor to strive for maximum tax benefits from their gift.

Investment Expertise

Our funds are invested by some of North America's top financial advisors. Through prudent investment practices, we strive to receive the best return at the lowest cost.

Recognition or Anonymity

A donor has the option of being recognized for their gift, or of remaining anonymous. The choice is theirs.

Broad Perspective

We develop networks in a wide range of sectors. We are well placed to make simple, but often powerful, connections between donors and organizations in the community.
