THE CALGARY FOUNDATION

FOR CALGARY FOREVER

2007-2008 Annual Report

The Calgary Foundation (TCF) works to create an

environment where citizens are engaged in community building at all levels, a city that is healthy and vibrant, embraces diversity and supports all its members, and where a strong and sustainable charitable sector serves community needs.

An important part of our work this year was to launch Calgary's Vital Signs, a citizens report card on the quality of life in our city. Calgary's Vital Signs is part of a national initiative, with reports being produced in 16 communities across Canada in 2008.

In 2007, Calgary's Vital Signs had more citizens participate as graders than any other city. The year also saw the inaugural release of *Vital Impact: Stories of Community in Action*. *Vital Impact* illustrated the widespread impact the non-profit sector has in affecting change in Calgary's quality of life.

As a catalyst for positive action, TCF established the Forever Funds Initiative to support emerging needs that require increased leadership and funding in Calgary and surrounding areas. Five areas of focus were identified – areas of growing need that, if more attention and resources are not forthcoming, would seriously affect quality of life in Calgary. These areas of focus are diversity and inclusion, arts and heritage, seniors, environment and mental health. The Calgary Foundation will inspire conversations in these areas through a Speaker Series (launched in 2007) and through signature transformational projects that will have lasting impact. We invite and encourage participation in assisting TCF to build endowments to provide sustainable support to these areas of need.

The Calgary Foundation wishes to be responsive to donor interests and the changing landscape in philanthropy. We will continue to respond to donor wishes and seek innovative solutions to your requests by making donor advised investments available and providing web-based access to fund and charitable sector information through DonorCentral. In granting, we look forward to partnering with other funders to support transformational grants for unique projects that will strengthen the charitable sector and contribute to the quality of life for Calgarians.

We are pleased to recognize the outstanding contributions of Ross McNichol, whose term as Chair of the Board ended in June. His leadership, counsel, and dedication were invaluable to the Foundation during a period of growth and new initiatives. We also acknowledge the contributions made by retiring Board members Gertrude Cohos, Chuck Shultz and Don Smith. We welcome new Board members Beverley Foy and Ken Little. We extend our thanks to all volunteers and staff who work to make Calgary a great place to live.

Auditors' Report

To the Directors of
The Calgary Foundation

We have audited the statement of financial position of The Calgary Foundation as at March 31, 2008, the statement of operations and changes in Foundation funds and statement of cash flows for the year then ended.

These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Foundation as at March 31, 2008 and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Notes to Financial Statements

Year ended March 31, 2008, with comparative figures for 2007

Description of the Foundation

The Calgary Foundation (the "Foundation") was incorporated in 1955 by The Calgary Foundation Act of the Legislative Assembly of Alberta. The Foundation is a registered charity classified as a public foundation under the Income Tax Act (Canada) and accordingly, is exempt from income taxes and can issue donation receipts for income tax purposes.

Foundation funds

Community & Field of Interest

These are endowment funds from which grants are directed to new and emerging needs of the community at the discretion of the Foundation. Field of interest fund grants are restricted to a charitable area, population or region at the time the fund is established.

Donor Advised & Designated

Donor advised funds are endowment funds from which grants are directed to charitable organizations with the advice of donors. Designated fund grants are directed to charitable organizations designated at the time the fund is established.

Flow-through

These are funds from which grants are directed to charitable organizations with the advice of donors. These funds are not maintained in perpetuity.

Managed funds

These are funds owned by other charitable organizations and pooled with Foundation assets for investment purposes.

Preservation of purchasing power

To support the policy of preserving the purchasing power of the permanent endowment funds, the Foundation limits the amount of annual grants to 5% of the market value of each fund.

1. Significant accounting policies

(a) Change in accounting policy:

Effective April 1, 2007 the Foundation adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA): "Financial Instruments - Recognition and Measurement", "Comprehensive Income", "Hedges" and "Financial Instruments - Disclosure and Presentation". These new standards have been adopted retroactively without restatement.

All financial instruments must be initially recognized at fair value on the balance sheet date. The Foundation has classified each financial instrument into the following categories; held for trading financial assets and liabilities, loans or receivables, held to maturity investments, available for sale financial assets, and other financial liabilities. Subsequent measurement of the financial instruments is based on their classification.

Unrealized gains and losses on held-for-trading financial instruments are recognized in earnings. Gains and losses on available for sale financial assets are recognized in net assets and transferred to earnings when the asset is derecognized. The other categories of financial instruments are recognized at amortized cost using the effective interest rate method.

There are no financial assets on the balance sheet designated as available-for-sale or held-to-maturity. Cash and term deposits, and marketable securities are classified as held-for-trading. All other financial assets are classified as loans or receivables and are accounted for on an amortized cost basis.

All financial liabilities are classified as other financial liabilities and are accounted for on an amortized cost basis.

Transaction costs are recorded in the statement of operations and changes in Foundation funds. There were no transitional adjustments on adoption of these standards.

(b) Foreign currency translation

Investments denominated in foreign currencies are translated to Canadian dollars at the exchange rate in effect on the date of the statement of financial position. Investment income denominated in foreign currencies is translated to Canadian dollars at the exchange rate in effect when realized.

(c) Contributions

The Foundation follows the restricted fund method of accounting for endowment and flow-through contributions. Contributions are recognized when the amount can be reasonably estimated and collection is assured. Flow-through contributions, not distributed in the year of receipt, are established as a liability until the grants are made.

(d) Administrative assets

The Foundation capitalizes and amortizes administrative assets. The assets are amortized over their useful lives of 3 to 5 years using the straight-line method of amortization.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and temporary investments with a maturity date of three months or less.

(f) Investments

Investments are recognized in the statement of financial position at fair value as established by the closing bid price on a recognized public stock exchange and as determined based on the Foundation's assessment of available market information. Realized and unrealized gains and losses are recorded in the statement of operations and changes in foundation funds.

(g) Controlled organizations

The Foundation discloses the resources of its controlled organizations. The controlled organizations follow the deferral method of accounting for contributions.

(h) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. By their nature, these estimates are subject to measurement uncertainty. The effect of changes in such estimates on the financial statements in future periods could be significant. Accounts specifically affected by estimates in these financial statements are the valuation of investments and the recoverability and useful life of administrative assets.

(i) Comparative balances

Certain comparative balances have been reclassified to conform to the current year's financial statement presentation.

(j) Future accounting and reporting changes:

On December 31, 2006, the Canadian Institute of Chartered Accountants ("CICA") issued three new accounting standards: Handbook Section 1535, Capital Disclosures; Handbook Section 3862, Financial Instruments - Disclosures; and Handbook Section 3863 Financial Instruments - Presentation. These new standards became effective for the Foundation as of April 1, 2008. These sections emphasize disclosure on how the Foundation manages capital and financial risk exposure on financial instruments, and their required changes will be reflected in future reporting documents. None of these required reporting changes are expected to have a material impact on the expenses or performance of the Foundation.

	\$298,295,823	\$297,943,232

Substantially all of the bonds and debentures are invested in investment grade securities in a fixed income pooled fund. At March 31, 2008 the average term to maturity of the fund is 9.69 years (2007 - 9.98 years).

The Foundation is exposed to fluctuations in market prices of stocks and bonds, interest rates and exchange rates, and credit risks on bonds. These risks are mitigated by the Foundation's investment policies, which prescribe the asset mix of investments, including the amount of foreign content, and credit ratings of bond issuers.
